

Fields of Activity

Chemicals & Materials

In Chemicals & Materials, OMV is one of the world's leading providers of advanced and circular polyolefin solutions with total polyolefin sales of 5.7 mn t in 2022, and a European market leader in base chemicals, fertilizers¹ and plastics recycling. OMV supplies services and products to customers worldwide together with Borealis and its two important joint ventures: Borouge (with ADNOC, based in the UAE and Singapore) and Baystar™ (with TotalEnergies, based in the US).

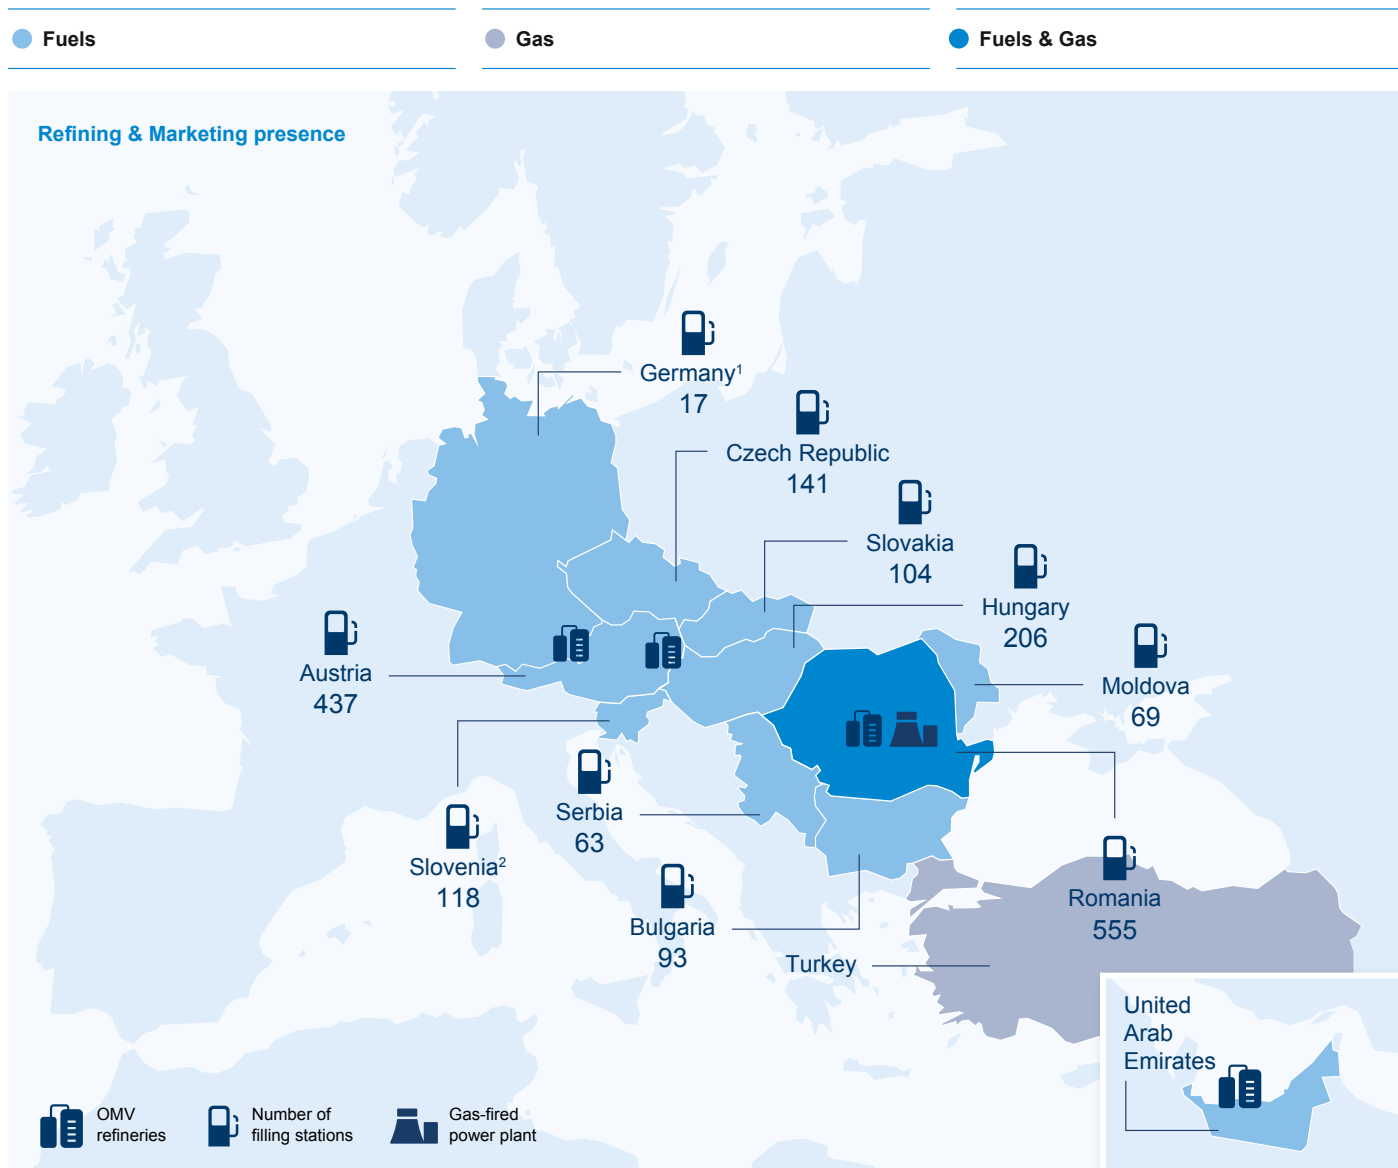

¹ On June 2, 2022, Borealis received a binding offer from AGROFERT for the acquisition of its nitrogen business including fertilizer, melamine and technical nitrogen products.

² Chemicals & Materials presence comprises OMV's petrochemicals presence as well as the production plants, sales offices, and logistics hubs of Borealis and Borouge.

Refining & Marketing

OMV's Refining & Marketing business refines and markets fuels as well as feedstock for the chemical industry. It operates three inland refineries in Europe and holds a strong market position in the areas where its refineries are located, serving a strong branded retail network and commercial customers. In the Middle East, it owns 15% of ADNOC Refining and ADNOC Global Trading. The processing capacity of its refineries amounted to around 500 kboe/d. In addition, the activities include Gas & Power Eastern Europe, where OMV Petrom operates a gasfired power plant in Romania and is engaged in gas and power sales.

¹ On May 1, 2022 OMV closed the transaction to sell its filling station business (285 filling stations) in Germany to EG Group.

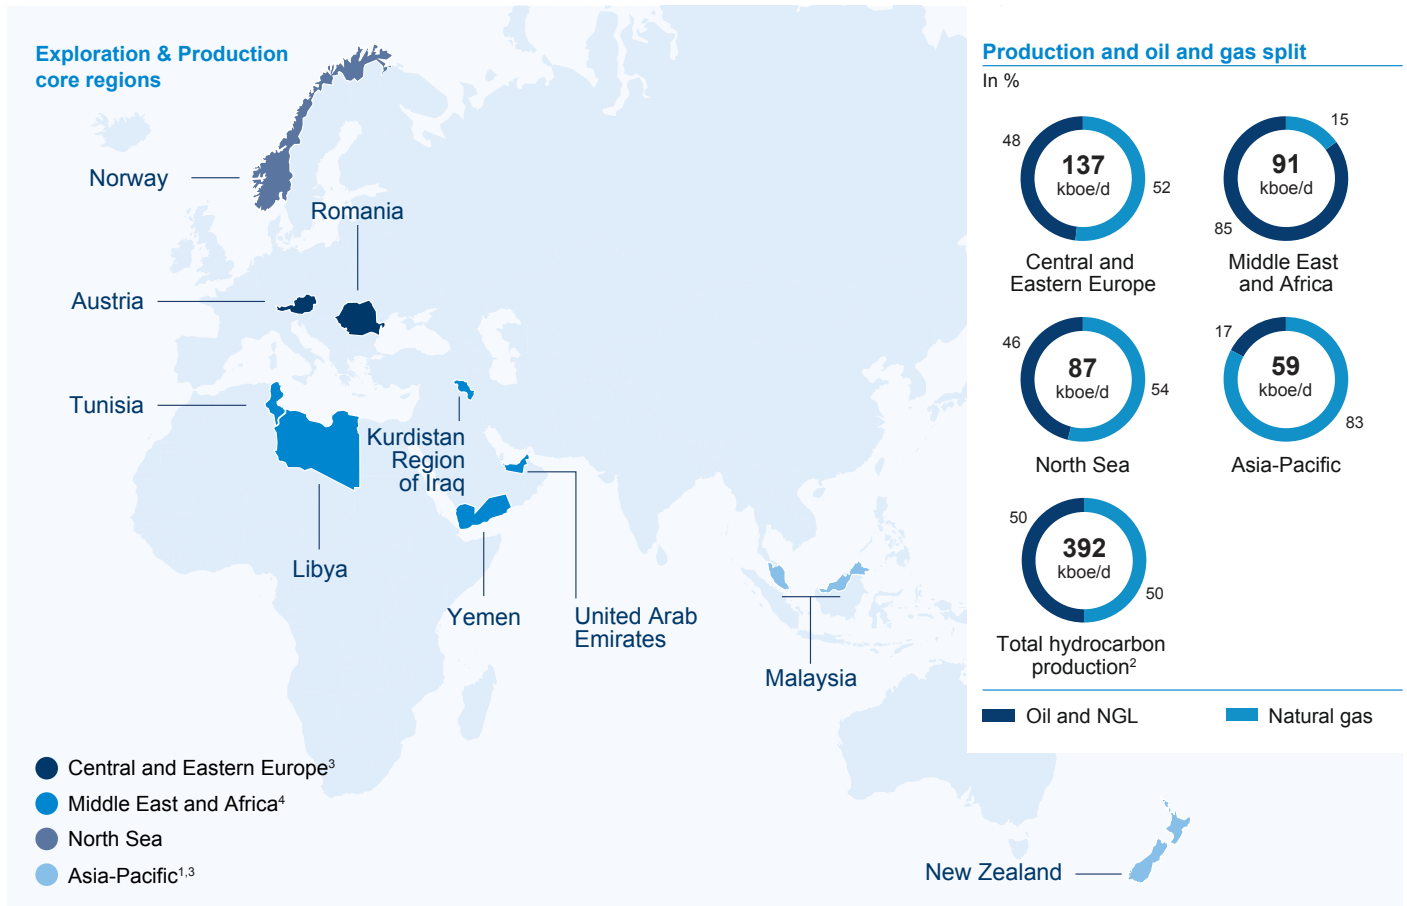

Furthermore, a divestment agreement was signed for Avanti Germany comprising the sale of 17 unmanned filling stations to PKN Orlen in December 2022.

² OMV has agreed to sell its business in Slovenia to MOL Group. The closing of this transaction is expected in 2023.

Exploration & Production

In Exploration & Production, OMV explores, develops, and produces oil and gas in its four core regions of Central and Eastern Europe, the Middle East and Africa, the North Sea, and Asia-Pacific¹. In 2022, daily production was 392 kboe/d² (equal to 143 mn boe), with a roughly equal share of natural gas and liquids production.

At year end 2022, proven reserves amounted to 1,037 mn boe. In the Gas Marketing Western Europe business, OMV markets and trades natural gas, operates natural gas storage facilities with a capacity of 30 TWh, and holds a 65% stake in the Central European Gas Hub (CEGH).

¹ On February 27, 2023, OMV announced the start of the sales process for its E&P business in the Asia-Pacific region.

² Includes gas production from a JV in Russia in the amount of 17 kboe/d in 2022. OMV no longer considers Russia a core region. Starting March 1, 2022, Russian volumes are not included anymore in total production, due to a change in the consolidation method.

³ In addition, OMV holds participations in exploration licenses in Bulgaria, Georgia, Australia, and Mexico.

⁴ In 2022 OMV signed an agreement to sell its relevant operating entities in Yemen.
